# Projects 2016

Public pool Alte Donau

Eiffeltower, Statue of Liberty, Petersdome, Neuschwanstein Castle, Schlossberg of Graz, Sydney Opera House, Ferris Wheel of Vienna. You can visit all these sights and many more at the Minimundus theme park in Klagenfurt am Wörthersee.

Additional products for pools and recreation

The Selection DF guarantees a barrier-free access at the newly renovated Bundesbad Alte Donau.

Vario 1100 D

Gyro Transpa

Gotschlich Selection DF gates work quickly in order to provide a high frequency in passages. Sensors secure that only one person can enter at a time.

After visiting the *small world*, all guests leave the theme park through spacious Saloon doors.

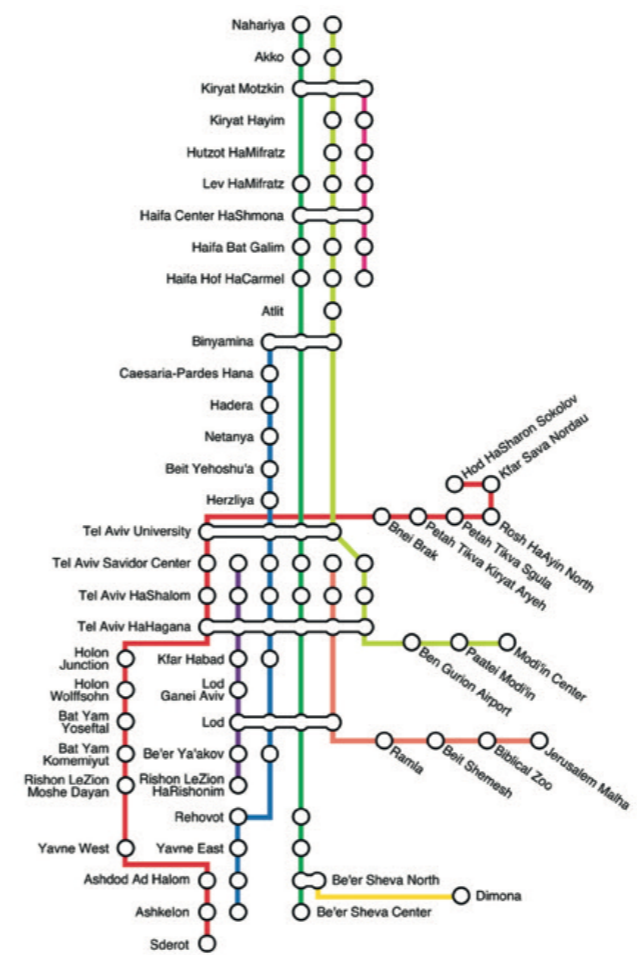

Vladivostok Aquarium

Israel train stations

Rubin Kazan Stadium

All stations of Israel Railways are being equipped with Gotschlich Selection DF gates. They secure the entry and exit and provide an easy passage for wheelchairs and buggies. Gotschlich turnstiles worked for 25 years and did an excellent job. Now they are being replaced by Selection DF gates. A proof for solid technology and durability of Gotschlich products.

# Paid Access

## ESD-Turnstile

ESD protection zones are sensible and need a safe access system. Electronic parts which are electrostatically charged can cause serious economical damage.

Gotschlich offers a reliable and unique solution: the well-proven Compact turnstile with integrated Personnel Grounding Test. It checks if a person is electrostatically charged. The turnstile will grant access for the employee only after a proper discharge has been effected.

The innovative and unique combination of Personnel Grounding Test and turnstile represents the new generation of ESD-access.

Flying high with Gotschlich.  
The highest placed payment machine in Austria.

## Trinity

Michael Wotke with Mr. Sauper, director of the Panoramarestaurant, on Großglockner mountain, the highest mountain in Austria.

 You will find Gotschlich's Trinity at 80 % of all service areas and gas stations along the Austrian Autobahn.

Practical for every store and restaurant ...

near train and bus stations, in commercial areas, near educational institutions, along highways, near tourist hot spots, in pedestrian areas, near parks and sports grounds, ...

## Design. Custom-made.

Why architects love Gotschlich so much?  
We design and build in order to meet your high expectations.

Once again, Gotschlich will be part of the world's most important trade fair for security. From September 27-30, 2016 we will present our latest products and innovations at the *security essen*.

We like to set new standards and get in touch with our business partners and prospective clients.

Come visit us at our stand 5A24 in hall 5.0 and discover our latest solutions.
